Goal:

To instill my love and passion for the game into the hearts of young athletes by coaching first the individual and then the athlete.

I was born into a family with four girls where softball was and continues to be our true passion. I grew up playing competitive fastpitch and eventually went on to play at Augustana College. I played for the Vikings as a catcher and infielder for two years until injuries ended my career. While at Augie, I majored in Athletic Training and since I could no longer play, I immediately decided to coach.

As a coach, I receive so much enjoyment out of watching the girls learn and fall in love with the game the same way I did when I was their age. My favorite players are not always the best one, but the ones who want to learn and get excited about improving their skills.

My primary area of expertise is catching. Catchers are a coach's biggest asset and I have the passion, knowledge, and experience to develop them to their fullest potential. Other areas of expertise include base running, infield, and hitting.

Credentials:

- 2 time High School All- State team
- Assistant coach - 2 years (18U competitive fastpitch)
- Head coach - 2 years (10U competitive fastpitch)
- Skills clinic facilitator
- Individual catching coach
